WONDERGLASS

Obsidian Flow[T] is a limited edition of Nao Tamura's celebrated Flow[T] chandelier, reimagined in obsidian glass. Drawing inspiration from the reflections of the Venetian cityscape shimmering in the evening water, it hints at an imaginary city beneath the moving surface. The piece embodies the beauty of duality, where the real and the fantastical coexist, capturing the essence of Venice's interplay between the world above and the world below.

Available as a set of 5 pieces minimum in a limited edition of 12 sets.
