BERG SIDE TABLE

by John Pawson

WONDERGLASS

Berg highlights the distinctive qualities of cast glass, where solid form meets abstraction. The design focuses on the material's rich texture and visual depth, with surfaces that capture and scatter light to create subtle reflections. Each table is cast and hand-finished to retain the unique variations of the process, resulting in pieces that respond to their environment while maintaining a clear and functional presence. The form is kept purposefully simple to emphasise the beauty of the glass and the skill of the Venetian artisans.

MATERIALS

Cast glass

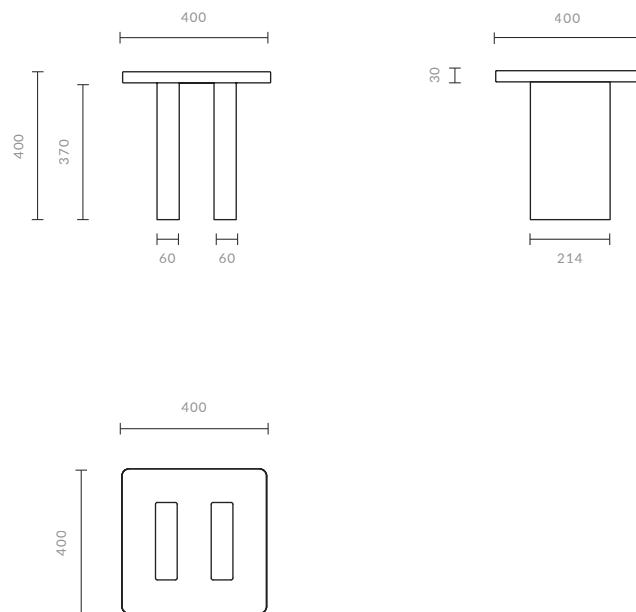

DIMENSIONS

D 400 x W 400 x H 400 MM / 50 Kg

COLOURS

Crystal
