INTERACTION

by Joana Vasconcelos, 2022

WONDERGLASS

Interaction brings together Vasconcelos's Crochet Paintings and blown glass forms, contrasting soft, yielding yarns with firm, ultra-gloss surfaces. The pendant preserves the intricate texture of the crochet while highlighting the reflective qualities of glass, creating a dialogue between material softness and rigidity. The work celebrates the continuity of craft across generations, transforming intimate, hand-crafted techniques into a sculptural presence that merges tradition and contemporary design.

Limited edition of 3.
